

Happy Sunday :)

I hope you all enjoyed your weekend and stayed out of the heat. What a crazy storm this morning!

The class voted and our class name this year is the **Fabulous Fruit! :)**

This week we will continue to work on community building activities to get to know each other and build our class community. This year it is so important to create a strong virtual classroom community which leads to students feeling empowered and valued, in which our Fabulous Fruit will thrive.

This week we will work on a number of activities on Seesaw, take some assessments, work on reading, writing, and math activities, and do some fun art projects. Tomorrow morning we will be going over what is inside the materials bag that was picked up on Friday, so please remind your student to keep that bag close to their learning space. It was so nice to meet so many of you on Friday. It sure was hot, so after about 30 minutes the 2nd grade teachers and I headed inside. I'm sorry if I missed you!

### **Assessment Schedule**

Please see the attached assessment schedule for the week. I will be meeting with each student after school this week for 20 minutes. During this time I will be getting to know your student, administering a reading assessment, and guiding the students to get started on individual reading and math assessments through the website FastBridge. When students are taking assessments at home, please do not help them find the answer, as their scores reflect what they know. Please let me know ASAP if the time slot for your student does not work. Students will be logging into our virtual classroom at their designated time(which they can access through our Bitmoji classroom on Seesaw).

### **Back To School Night**

Attached is a BTSN slide show. Please take some time to go through the slides and click on the link for our class website. At the end of the slide there is link to a Google Form. Please submit all questions you have about our virtual learning, through the form, and I will address them at our

back to school night. Our time is this Tuesday 8/18 from 6:00-6:30 PM. Our zoom link is...
